

Hulda Clark's para-cleanse program, minus the amino acids l-Arginine and l-Ornithine. (The amino acids were intended to help with any discomfort from the cleansing. But they have not proven effective. So we now leave them out of the system, since they only add unnecessary expense and, according to Dr. Clark, do not affect the actual parasite cleansing in any way whatsoever.)

You may moderate amounts according to your own body. Some people will feel nauseated and will have to take less, progressing slower. Dr. Clark says not to get interrupted before day six. After that she says you can progress slower, if needed. Her suggestions are found in her book "The Cure for all Cancers". Her para program is quite popular with many, many, positive testimonials.

After day 21 Dr. Clark suggests following the pattern for day 21 and remembering to take 14 wormwood blend capsules twice a week, until you run out of everything.

The para-cleanse kit consists of 4 items:

- 1—information sheet (the one you are reading right now)
- 1--2 oz dropper bottle of Walnut black hull tincture
- 1--120 count bottle of cloves (encapsulated within 24 hours of grinding to ensure maximum potency)
- 1—180 count bottle of Wormwood blend
